

RA Flight Instructor

20190803 Principles and Methods of Instruction (PMI)

Flightscope Aviation, Rod Flockhart

- make patten notes (see phone images for examples)
- CAO 95.55 for aircraft limitations
- Laws of learning (7, see raaus FI manual page 4)
 - Readiness
 - Primacy
 - Relationship
 - Exercise
 - Intensity
 - Effect
 - Recency
- S&L
 - stability
 - * e.g. pitch up 20 degrees, release stick, watch porpoising magnitude to slowly decrease back to stable
 - spiral stability
 - * e.g. in an established spiral dive, releasing controls will not recover and stabilise the dive
- to practice:
 - off-airport forced landing
 - * adopt V_g without using ASI
 - landing, holding off nose
 - stall recovery
 - * maintain level flight
