

## CHAPTER 12 IDENTIFICATION OF RPA

### 12.01 Identification of RPA required to be registered

- (1) This section is for subregulation 101.098 (1) of CASR.
- (2) In this section:  
*unmanned aircraft to which this section applies* means an RPA that is required to be registered under Division 47.C.2 of CASR.
- (3) An unmanned aircraft to which this section applies must at all times when it is operating:
  - (a) legibly display, in a manner that is easily seen or accessible:
    - (i) the manufacturer's serial number; or
    - (ii) if there is no manufacturer's serial number — the mark allocated by CASA when the aircraft was registered; and

*Note* This requirement is met even if the serial number or CASA mark is written or affixed inside the aircraft, as long as the number or mark is in a position where an authorised person or a police officer on the ground can readily view, see or inspect it, for example, inside an easily opened battery compartment.
  - (b) use the electronic identification of the aircraft (if any) allocated by the manufacturer, in such a way that it is not changed, masked or interfered with in any way without the written permission of CASA.
